WE ARE FIELD PROVEN

TITAN IMPLEMENT manufactures a wide range of implements and attachments that will work as hard as you do. Our agricultural equipment is designed to exceed your expectations and provide you with the best value-for-cost.

OUR MISSION is to provide the most value on the market, to unearth the best in our employees, and to excel in our field so that our customers can conquer theirs.

OUR STORY began in 2014 when Mike Turner and his son, Baily, launched a company that would take the market by storm. Their family has a history with agriculture (their family farm dates back to 1898) and they have over 35 years of experience in the manufacturing business. It's this combination that gives Titan Implement the edge against our competition, because we use what we make.

TB-FLEX

FRONT-ATTACH MOWER

The best front-attach mower is here. We listened to feedback from TrailBlazer customers and designed a game-changing new front-attach mower. The TB-Flex offers a *free-floating cutter deck* that follows the contours of the ground, and it does so without scalping or gouging. We've included *counter balance tubes* to ensure a more balanced operation.

Adjusting cutting positions now easier than ever. A single, red-handled pin is used to adjust any and all positions. *No cumbersome steel strap or chain needed!*

Made for you. There are four mounting options and two motor options available. With double sided cutter blades, Eaton Charlynn hydraulic motor and a 2-Year TrailBlazer Motor Warranty.

3515

15' FLEX-WING CUTTER

Introducing the new 15' Flex Wing cutter from Titan Implement. Engineered to disrupt the industry with next level performance at a truly affordable price. The 3515 is manufactured with a smooth top deck, a 3.5" cut capacity, multiple tire options, and an optional light kit for road towing.

Our standard options include:

- Chain guards deck rings
- Powder coat paint
- Press formed blade
- And a rock solid reinforced deck.
